SUBJECT INDEX TO VOLUME XV

(abs) = Abstract. (E) = Editorial. (B.R.) = Book Review

Abscess, lung, study of 22 cases (abs), 472
Sweat gland, roentgen treatment of (abs), 588
Acne, treatment of, by combined use of roentgen ray and quartz light (ab), 393
Adenitis, cervical, condition of upper respiratory tract following roentgen treatment of (abs), 390
Cervical tuberculous, radiotherapy in treatment of (abs), 269
Adenomata, hypophysial (abs), 291
Air bubbles in interior of skull (abs), 471
Albers-Schönberg's disease (abs), 463
Allergy: Asthma, Hay Fever, Urticaria and Allied Manifestations (B.R.), 179
Amebic infection of colon, value of roentgen ray in estimating extent of (abs), 189
Amenorrhea, artificial temporary, in treatment of inflammatory diseases of uterine adnexa (abs), 385
American Annual of Photography (B.R.), 454
American College of Radiology, new officers of, 450
American Medical Association, program of 1926 meeting, 253
American Medical Association, Section on Radiology, 450
American Radium Society, new officers of, 450
American Roentgen Ray Society, announcement of annual meeting, 164
American Roentgen Ray Society, annual meeting (E), 546
Anemia, Biermer's, roentgen study of gastric function in (abs), 574
Aneurysms of the internal carotid and the circle of Willis, 122
Angioma cavernosum, a case treated by radium (abs), 477
Appendix, in normal subjects (abs), 572
Applicator, radium, for treatment of uterine carcinoma, 365
Arthritis, chronic, of hip (abs), 460
Deformans, juvenile (abs), 560
Tuberculous, changes in the articular surfaces in (abs), 379
Arthrogryposis multiplex congenita (abs), 266
Ascarides of small intestine, case discovered by roentgen examination (abs), 578
Ascaris, eggs of, coefficient of temperature of the action of the roentgen rays on (abs), 291
Asthma, bronchial, and chronic bronchitis, roentgen-ray treatment in (abs), 385
Bronchial, irradiation of spleen in (abs), 90
Bronchial, roentgen therapy of (abs), 586
Roentgen therapy of spleen in (abs), 581
Atelectasis of the lung (abs), 573
Atlas der Anatomie des menschlichen Körpers im Röntgenbild, by Albert Hasselwander (B.R.), 367
Atlas, manipulative (chiropractic) dislocations of (abs), 369
Autoblood and roentgen treatment, effects and rationale of (abs), 276
Autoradiography and fixation of polonium (abs), 294
Axilla, roentgen treatment of sweat gland abscesses of (abs), 588

Barium preparations, poisoning with, in roentgen studies (abs), 276
Salts, two deaths from administration of (abs), 281
Basedow's disease, roentgen treatment of (abs), 587
Biermer's anemia, roentgen study of gastric function in (abs), 574
Biochemistry of irradiation (abs), 279; 280; 489
Biological action of roentgen rays (abs), 280
Effects of radium upon tissues growing *in vitro*, 155
Reactions of growing tissues to radiant energy (abs), 274
Blood changes in rabbits and guinea pigs produced by local or intravenous injections of radium emanation (abs), 293
Coagulability, roentgen irradiation of spleen and (abs), 192
Human, studies on suspension stability of (abs), 286
Pressure, changes in, after irradiation of testicles (abs), 192
Pressure reducing effect of radium baths and radium emanation (abs), 490
Reaction, alkali reserve and mineral composition, influence of heat radiation on (abs), 489
Shift during deep irradiation (abs), 489
Bone diseases, juvenile, 357
Sarcoma, diagnosis and prognosis of (abs), 376
Bones, development of, after irradiation of testicles with roentgen rays (abs), 489
Of lower limb, congenital defects of (abs), 282
Brain, tumors of, changes in size and relations of lateral ventricles in (abs), 182
Tumors, roentgen-ray treatment of (abs), 269; 581
Breast carcinoma, present status of radiation therapy of (abs), 478
Carcinoma, roentgen treatment of (abs), 479
Carcinoma, spinal metastasis from (abs), 482
Recurrent carcinoma of, with roentgen-ray fibrosis (abs), 393
Bronchi, normal and diseased, lipiodol for study of (abs), 265
And trachea, roentgenographic demonstration of, 227
Bronchial dilatation with sinistrocardia and deviation of trachea (abs), 459
Bronchial stenosis, roentgen diagnosis of (abs), 578
Bronchiectasis, diagnosis of, with contrast oil (abs), 265
Roentgen-ray study of, 54
Bronchography aided by laryngeal catheter (abs), 573
Broncho-mycosis, treatment of, by roentgen ray (abs), 387
Bronchopulmonary lesions including tuberculosis, lipiodol as aid in diagnosis of (abs), 368
Bursitis, subacromial, calcareous deposits of (abs), 84

Calculus, urinary bilateral (abs), 461
Callositas and verruca plantaris, roentgen treatment of, and remarks on pathogenesis (abs), 388
Calvé-Legg-Perthes' disease (see osteochondritis deformans juvenilis coxae)
Cancer, advanced, roentgen treatment of (abs), 388
Immunity in (abs), 394
Inoperable, of female pelvic organs (abs), 482; 580; 582
Its cure (abs), 396
Mortality in the ten original registration states; trend for period 1910–1920 (abs), 287
Of the breast, radiation in treatment of (abs), 391
Of ear, nose and throat, electrocoagulation and radiation therapy in (abs), 391
Of lower lip (abs), 389
Of rectum, radiation treatment of (abs), 388
Of the tongue and oral cavity, treatment of, by radium emanation, 204
Of the tongue, results after treatment by radium and roentgen rays, 207
Radiosensitiveness of, in relation to cytodieresis (abs), 491

Cancer, radium in treatment of (abs), 89
Review of theories of mechanism of action of radiation in treatment of (abs), 274
Cancerous individuals, irradiation of endocrine glands in (abs), 87
Carbuncles, non-surgical treatment of (abs), 383
Roentgen-ray treatment of (abs), 387
Carcinoma, collum, radiation treatment of (abs), 584
Gynecological, radiation treatment of (abs), 190; 587
Intraoral, treatment of, by radium, 201, 210
Metastatic in bone, 530
Metastatic in vertebrae from the prostate, 534
Of body of uterus, treatment of (abs), 393
Of the breast, present status of radiation therapy of (abs), 478
Of the breast, recurrent, with roentgen-ray fibrosis (abs), 393
Of the breast, roentgen treatment of (abs), 479
Of the breast, spinal metastasis from (abs), 482
Of the cervix, broad ligament extension in, 336
Of the cervix, radiation treatment of (abs), 583
Of the esophagus, radium treatment of (abs), 589
Of the lower jaw, difficult problems in treatment of (abs), 387
Of the stomach, auxiliary methods of diagnosis—radiological and chemical (abs), 461
Primary, of the trachea (abs), 372
Uterine, 365
Uterine, statistical report of roentgen treatment of 800 cases (abs), 270
Carman, Russell D. Portrait opposite 351
Castration and climacteric symptoms (abs), 480
And climacterium, circulatory changes in, especially in myoma (abs), 494
Temporary roentgen, indication for (abs), 395
Catalase of the liver, influence of radium on (abs), 490
Cataracts, immature and incipient, radium treatment of (abs), 481
Cathode rays, high voltage, outside generating tube (abs), 289
Cells, living, study of action of roentgen rays upon (abs), 492
Plant, action of radium on (abs), 496
Cellulitis and local inflammations, roentgen ray in treatment of (abs), 387
Cerebral pneumography, dangers and uses (abs), 268
Cervix, carcinoma of, broad ligament extension in, 336
Carcinoma of, radiation treatment (abs), 580
Chest, bibliography of normal (abs), 288
Normal (abs), 484
Of infant, radiography of, with reference to the "progression of the chest and the determination of the normal" (abs), 382
Chiropractic dislocations of atlas (abs), 369
Cholecystography (abs), 85; 184; 472; 577; 578
Appearance and disappearance of the shadow (abs), 86
Experiences with (abs), 372
In diagnosis of cholecystic disease (abs), 84
Oral administration of tetraiodophenolphthalein for (abs); 377, (E), 545
Recent advances in (abs), 381
Value of (abs), 574
With tetrabromphenolphthalein (abs), 469; 576
Cholelithiasis, clinical features of (abs), 82
Cholesterin, action of roentgen rays upon (abs), 492
Chondrodysplasia, hereditary deforming (abs), 370
Climacteric symptoms after castration (abs), 480
Climacterium and castration, circulatory changes in, especially in myoma (abs), 494
Colon, and colonic ptosis, roentgenoscopy of (abs), 458
Dilatation of, with subacute intestinal obstruction, 326
Constant continuous tension in production of roentgen rays (abs), 492
Constant current, studies on use of, in therapy (abs), 91
Cosmic origin of rays (E), 161
Coxa plana (abs), 564
Vara (abs), 564
Vara, pathogenesis and therapy of (abs), 275
Vara, traumatic, 242
Curiegraphy of experimental tumors by intravenous injection of serum charged with radium emanation (abs), 488
Cysticercosis, pulmonary, roentgen diagnosis of (abs), 186
Cystography with opaque liquids (abs), 467
Czecho-Slovakian Republic, Fourth Scientific Meeting of Association of German Roentgenologists of, 250

Dactylomegaly (abs), 480
Deafness, obstructive, radiation therapy in (abs), 580
Decay constant of radium emanation (abs), 485
Dentistry, preventive (abs), 380
Dermatitis due to freezing, roentgen therapy of (abs), 473
Dermatoses, roentgen-ray treatment of various (abs), 474
Development of roentgen-ray films, laws of (abs), 287
Diaphragmatic hernia (abs), 184
Hernia, congenital, 135
Hernia of the stomach, roentgen appearance of peristalsis in (abs), 573
Diathermy for treatment of malignant growths in combination with roentgen ray (abs), 86
Diverticula, intestinal, 469
Doramad salve used with radium in treatment of roentgen burn (abs), 580
Dosage, convenient and accurate method of measuring, 169
Divided roentgen-ray, study of skin reactions after, 513
Some physical factors in (abs), 278
Stimulative, 476
Study relative to the therapeutic dose of unfiltered radon, 1
Tables as aid to simplification of roentgen-ray technique, 360
Duodenal bulb, roentgen examination of, by the method of the thin layer (abs), 457
Diagnosis, technique of (abs), 81
Stenosis, complicating gastric affections (abs), 460
Ulcer, clinical and roentgen considerations of (abs), 371
Ulcer, roentgen diagnosis of (abs), 375
Duodenum, differentiation of normal and pathological processes (abs), 188

Ear, nose and throat diseases, roentgen-ray therapy in the non-surgical treatment of (abs), 479
Echinococcus of the liver, roentgen diagnosis of (abs), 81
Eczema, acute, treatment with roentgen rays (abs), 481
Infantile, radiation of thymus in (abs), 457
Egg of hen, a comparison between effects of roentgen ray and aging on (abs), 288
Electrocoagulation and radiation therapy in malignant disease of the ear, nose and throat (abs), 391
Emanation tubes, radium, device for sealing off (abs), 286
Endocrine changes following uterus extirpation, surgical castration, roentgen castration and normal climacterium (abs), 292
Glands, irradiation of, in cancerous individuals (abs), 87; 578
Glands, a new method for the stimulation of, with radium, 520

Epicondylitis, 84
Epiphyses of femur, arterial vessels of, and their relations to normal and pathological processes (abs), 566
Epiphysitis (E), 446
Epithelioma of penis treated by radium and roentgen rays, 36
Erythrocytes, velocity of sedimentation of, in roentgen-ray therapy cases (abs), 286
Esophagus, obstruction of (abs), 379
  Radium treatment of carcinoma of (abs), 589
Exostosis bursata, problem of (abs), 571
Exposure, snap shot versus time (abs), 191
Eye of rabbit, normal and infected, experimental studies on effect of roentgen rays upon (abs), 491

Female genital organs, roentgen treatment of (abs), 589
  Genital organs, treatment of inoperable cancer of (abs), 580(2); 582
Fertility and sex ratio, effect on, of substerility exposures to roentgen rays (abs), 271
Fibromyoma, operations on cases unsuccessfully treated by roentgen rays (abs), 478
  Of the uterus, treatment of (abs), 475
Film reductions, positive, from roentgen-ray plates (abs), 484
Films, rigid, in roentgenography of the mouth (abs), 283
Fistulas, chronic ulcerating, treatment of with thorium X (abs), 191
Fluoroscopy, biplane, in treatment of fractures (abs), 271
Focal infections, radiation therapy in (abs), 580
Foot, sesamoid anomalies of (abs), 572
Foreign body in lung, atelectasis caused by (abs), 573
Fractional roentgen irradiation, 115
Fracture stretcher, new radiolucent (abs), 271
Fractures, biplane fluoroscopy in treatment of (abs), 271
  Of carpal navicular bone (abs), 381
  Of radius, typical (abs), 380
  Their roentgenological interpretation (abs), 380
  Traumatic, of vertebral column (abs), 466
Fungi, pathogenic, effect of radium and roentgen rays on (abs), 491

Gall-bladder (see also cholecystography)
  Clinical significance of visualization by tetraiodophenolphthalein (abs), 379
  Disease, secondary evidence of, 58
  Its visibility after injections of tetrabromphenolphthalein (abs), 576
  Roentgen examination of (abs), 456
  Roentgen rays as aid in diagnosis of pathological (abs), 462
  Roentgenologic demonstration of (abs), 185
  Roentgenologic demonstration of the pathological (abs), 457
  Roentgenologic visibility of, after administration of alkaline bromides (abs), 468
  Visualized, effect on, of duodenobiliary drainage (abs), 273
Gallstones, chemical composition of, in Dutch India (abs), 577
Gastric affections, non-neoplastic, roentgen treatment of (abs), 473
  And duodenal roentgen-ray finding after operation (abs), 370
  Peristalsis and spasm, various forms of, in the roentgen picture (abs), 81
  Tumors, benign and malignant in same patient, roentgen diagnosis of, 542
Gastritis, chronic, roentgen-ray signs of, 323
Gastroduodenal anatomy and physiology, radiologic considerations of (abs), 290
Gastrointestinal conditions roentgenologically considered (abs), 464
Generator, new, for medical roentgenology (abs), 293
Goetsch's test in the roentgenotherapy of Basedow's disease (abs), 486
Graham's method of cholecystography (abs), 85
Graphical methods of calculation in radium therapy, 451
Grounding, insulation versus, as protection against shocks, 49
Gynecologic conditions, benign, radioactive pessaries in treatment of (abs), 86
Gynecological practice, high voltage roentgen-ray therapy in (abs), 477
Gynecology, devices for use of radium in (abs), 292
  Indications for radiation therapy in (abs), 477
  Position of deep roentgen therapy in (abs), 89
  Progress of radiation therapy in (abs), 386
  Review of four years' work with radium in (abs), 384

Head, vertical and horizontal planes of (abs), 91
Heart, function and radioactivity (abs), 495
  Growth of, roentgenographic observations (abs), 486
  Investigation of movements of, by use of slit diaphragm and moving film (abs), 488
  Size, value of long focus roentgenography in comparative investigations of (abs), 471
Heliotherapy, physical and biological problems in, 193
Helium, radium and mesotherium, commercial production of (abs), 490
Hemorrhage, benign, roentgen treatment of (abs), 270
  Uterine, control of, by roentgen ray (abs), 390
Hereditary abnormalities of the viscera; special reference to abnormalities of kidneys (abs), 484
Hernia, diaphragmatic, 135; (abs), 184
Hip, chronic arthritis of, with subluxation and ankylosis in adult (abs), 460
  Congenital dislocation of, 258
  Non-tuberculous of early life (abs), 564
Hodgkin's disease of the sternum, 525
Hypophysial adenomata (abs), 291
  Pressure symptoms due to hydrocephalus (abs), 187

Illinois State Medical Society, section on radiology, 549
Induction coil, effect of capacity on (abs), 283
Infections, focal, radiation therapy in (abs), 580
  And suppurations, coccus, roentgen treatment of, 332
Inflammations, local, cellulitis and carbuncles, roentgen rays in treatment of (abs), 387
  Roentgen treatment of (abs), 481
Injuries, late roentgen, of skin, clinical features and pathogenesis of (abs), 482
Instruction of physicians in roentgenology (abs), 278
Insulation versus grounding as protection against shock, 49
Intestinal obstruction, subacute, with unusual dilatation of colon, 326
Intestine, small, physiological movements of (abs), 272
Intraoral carcinoma, treatment of, by radium, 201, 210
Iodipin, (see also lipiodol)
  As a pyelographic medium (abs), 267
  For diagnosis of spinal subarachnoidal block (abs), 263
  In diagnosis of bronchiectasis (abs), 265
  In roentgen diagnosis in respiratory organs (abs), 265
Iodized oil (lipiodol) in roentgenology (E), 352
Ionization chamber, theoretical and experimental study (abs), 90
  Of air, determination of energy used by roentgen rays of different wave lengths (abs), 279

Irradiation (see also radiation)
Fractional roentgen, 115
Mild (abs), 87; 590

Jaw, lower, carcinoma of, difficult problems in treatment of (abs), 387
Joint, persistent contracture of (arthrogryposis) (abs), 266
Joints, experimental studies on roentgen anatomy and pathology of (abs), 277
Tuberculosis of, early diagnosis and treatment of (abs), 464
Tuberculous, roentgen-ray appearance of (abs), 468

Keratitis in a guinea pig eye following extra soft irradiation (abs), 485
Kidney pelvis and ureter, dilatation of, during pregnancy (abs), 377
Kidney shadow under pneumoperitoneum (abs), 470
Kidneys, a morphological study with special reference to abnormalities of, in descendants of *x*-rayed mice (abs), 484
Knee, diagnosis of diseases and injuries of (abs), 469
Köhler's disease of the os naviculare and metatarsus (abs), 83
Disease of the tarsal scaphoid (abs), 563

Laryngeal catheter as an aid in bronchography (abs), 573
Legg's disease (see osteochondritis deformans juvenilis coxae)
Leucemia, from radioactive bodies (abs), 292
Lymphatic, neoplastic nature of, and its relation to lymphosarcoma, 497
Lilienfeld tube, use of, in roentgenography (abs), 288
Lip, lower, cancer of (abs), 389
Lipiodol, and iodipin in diagnosis of spinal lesions, 431
And other iodine contrast material in demonstration of bronchi (abs), 187
As aid in demonstration of pulmonary pathology in tuberculosis (abs), 368
As aid in diagnosis of bronchopulmonary lesions including tuberculosis (abs), 368
Demonstration of bronchial tree by means of, 65
For roentgen studies of normal and diseased bronchi (abs), 265
For roentgenograms of tear ducts (abs), 471
In the bronchial tree (abs), 82
In diagnosis of bronchiectasis (abs), 83; 189
In diagnosis of subdural tumor of lumbosacral cord (abs), 471
In diagnosis of tumor of spinal cord (abs), 267
In diagnosis of vertebral canal (abs), 268
In roentgenology (E), 352
Injection of, in bronchial dilatation with sinistrocardia (abs), 459
Liver abscess and pylephlebitis following appendicitis (abs), 180
Liver, catalase of, influence of radium on (abs), 490
Post mortem autolysis of, effect of roentgen ray upon (abs), 92
Lung abscess, bronchoscopic treatment of, 419
Abscess, medical standpoint, 407
Abscess, roentgen-ray diagnosis of, 410
Abscess, study of 22 cases (abs), 472
Abscess, surgical aspects of, 421
Apex, improved technique for demonstration of in roentgenogram (abs), 373
Apex roentgenography, technique of (abs), 264; 267
Atelectasis in (abs), 573
Importance of apical roentgenogram in tuberculosis of the (abs), 457
Massive collapse of, 456
Lung abscess, roentgenogram and demonstration of the apices (abs), 276
Lymph nodes of neck, involvement of, in oral carcinoma, 205
Lymphoblastoma (Hodgkin's disease) of the sternum, 525
Lymphosarcoma, relation of lymphatic leucemia to, 497
Two cases of (abs), 472

Malacia of the sesamoid bone of the first metatarsal, a typical disease picture (abs), 377
Malignancies, alimentary tract, radiation treatment of, 441
Breast, radiation treatment of, 442
Cervical, radiation treatment of, 440
Deep-seated, radiation therapy in (abs), 89
Genito-urinary tract, radiation treatment of, 443
Metastatic, radiation treatment of, 444
Radiation treatment of, 436; (abs), 397
Treatment of, by diathermy and deep roentgen therapy (abs), 86
Uterine, radiation treatment of, 443
Massive collapse of the lungs (abs), 456
Mastoiditis (abs), 371
Measurement, methods of, in practical radiotherapy (abs), 494
Of roentgen-ray dosage, unification of (abs), 495
Measurements, physical, of radiation and their application to therapy, 551
Mediastinal and lung tuberculosis (abs), 458
Mediastinal tumors, roentgen-ray exposure as aid in diagnosis (abs), 373
Mega-esophagus, roentgen examination in study of (abs), 575
Mesothorium, radium and helium, commercial production of (abs), 490
Metabolic differences, following *x*-radiation, between normal rats and rats immune to Jensen's rat sarcoma (abs), 290
Disturbances following deep roentgen therapy (abs), 284
Metatarsal, first, malacia of sesamoid bone of (abs), 377
Mounting card for film reductions, 78
Muds, various, radioactive effects of (abs), 288
Myeloma, multiple, a case of, resembling transverse myelitis (abs), 460
Multiple, and sporotrichosis, similarity of roentgen findings in, 224
Multiple, in a child (abs), 477
Myoma, circulatory changes in climacterium and castration in (abs), 494
Myomas and metrorrhagias, treatment of, 251
Myositis ossificans progressiva, 328

Nasal accessory sinuses, roentgen diagnosis of (abs), 183
Necrosis, radium (mesothorium) (abs), 284
Needle, new, for implantation of radium emanation in glass tubes (abs), 283
Neoplasms, renal (abs), 185
Transplantable, effect of controlled conditions of illumination upon (abs), 285
Nevo-carcinomas, treatment of (abs), 481
New York, Central, Roentgen Ray Society, 549
New York Roentgen Society, report of one-hundredth meeting of, 449
Nucleus and cytoplasm, comparative action of roentgen ray and radium on (abs), 483

Obstetrics, roentgen diagnosis in (abs), 589
Olecranon, significance of transverse groove in (abs), 184

Ophthalmology, general roentgenological progress and its application to diagnosis and therapy in (abs), 294
Oral administration of tetraiodophenolphthalein for cholecystography (abs), 373; 377; (E), 545
Os hamatum, fractures of (abs), 182
Osteitis deformans (Paget's disease) and its relation to osteitis fibrosa and osteomalacia (abs), 463
Fibrosa and the hyperostotic form of bone syphilis (abs), 190
Fibrosa cystica (abs), 187
Fibrosa cystica, generalized type of (abs), 372
Fibrosa, relation of osteitis deformans to (abs), 463
Osteochondritis, an endocrine disturbance (abs), 565
Deformans juvenilis coxae and related diseases (abs), 83
Deformans juvenilis coxae (Legg-Calvé-Perthes' disease) collection of abstracts, 557–571
Dissecans of the elbow (abs), 468
Syphilitic (E), 546
Osteofibrosa, vacuolated (osteopathy of von Recklinghausen) (abs), 456
Osteomalacia, in China (abs), 465
Relation of osteitis deformans to (abs), 463
Osteomyelitis (abs), 579
Osteomyelitis, chronic, especially of spine (abs), 378
Of the cranial bones secondary to paranasal sinus operations (abs), 464
Osteosarcoma, multiple, of the skull and face, before and after roentgenotherapy (abs), 476
Otitis, chronic, roentgen findings in (abs), 266
Otolaryngology, electrotherapeutic measures in (abs), 473
Ovaries, stimulative roentgen irradiation of (abs), 395
Oxycephaly (abs), 459
With ocular complications (abs), 464

Pancreatitis, chronic, roentgen diagnosis of, and its relation to some of the common skin diseases (abs), 467
Paralyses, peripheral, roentgen treatment of (abs), 581
Patella, developmental anomaly of (abs), 81
Divided (abs), 574
Primary tumors of (abs), 85
Pedunculated growths and gastric mucosa prolapsing through pylorus, diagnosis of, 295
Pelvic inflammations, treatment of, with small doses of roentgen rays (abs), 474
Pelvimetry of superior strait by means of the roentgen ray (abs), 189
Pelvis, sarcoma of (abs), 575
Penis, epithelioma of, treated by radium and roentgen rays, 36
Periduodenitis essentially stenosis (abs), 577
Perigastritis, three cases of (abs), 577
Peristalsis, reverse in bowel, a precursor of vomiting (abs), 282
Roentgen appearance of, in diaphragmatic hernia of stomach (abs), 573
Perthes' disease (see osteochondritis deformans juvenilis coxae)
Pertussis, treatment of, with roentgen rays (abs), 191; 478
Pessaries, radioactive ceramic, for treatment of benign gynecologic conditions (abs), 86
Pfender, Charles Alexander, 167
Phlebitis, aseptic, following injection of tetrabromphenolphthalein (abs), 274
Physikalische und Technische Grundlagen der Röntgentherapie (B.R.), 80
Physiotherapy: Theory and Clinical Application (B.R.), 79
Pituitary tumor, roentgen-ray therapy in (abs), 87
Pleura pulmonalis, human, a study of; its relation to the blebs and bullae of emphysema, 399
Pleuritis, mediastino-lobar, in gland tuberculosis (abs) 263
Pneumoencephalomyelography, value and safety of a simplified method of, 231
Pneumography, cerebral (abs), 268
Pneumonias, postoperative, roentgen therapy of, 251
Pneumoperitoneum, new technique for performing (abs), 279
Pneumoperitoneum to show kidney shadow (abs), 470
Pneumothorax, spontaneous (abs), 187
Poliomyelitis, bone changes in (abs), 184
Polycystic kidney, pyelography in (abs), 467
Polycythaemia rubra, a case of, relieved by roentgen treatment (abs), 396
Portable *x*-ray apparatus (abs), 494
Potter-Bucky diaphragm (abs), 487
Pregnancy, diagnostic and therapeutic *x*-radiation in (abs), 290
Dilatation of ureter and kidney pelvis during (abs), 377
Extrauterine, with secondary abdominal pregnancy (abs), 279
Pyelitis in, 144
Prostatic carcinoma, diffuse vertebral metastasis of, 534
Protection, methods of (abs), 272
Of technical assistants and those handling large quantities of radium or radon, 345
Proteins, effect of roentgen rays upon (abs), 496
Protoplasm, change in, due to irradiation (abs), 495
Psoas abscess, roentgen sign of (Vienna letter), 358
Psoriasis, thymus-thyroid irradiation in (abs), 585
Pubis, roentgenography of, and diagnosis of syphilis (abs), 579
Pulmonary roentgenography, value of soft-ray technique in (abs), 265
Pyelitis in pregnancy, 114
Pyelographic medium, iodized oil as (abs), 267
Pyelography in polycystic kidney (abs), 467
Pylephlebitis and liver abscess following appendicitis (abs), 180
Pylorus, diagnosis of pedunculated growths and mucosa prolapsing through, 295

Quality of roentgen rays, standards of (abs), 493

Radiation, constitutional effects of, 111
Physiological actions of, 96
Primary effects of, on cells, 93
Reparative processes, 98
Theories regarding action of, 95
Therapeutic methods and dosage, 105
Therapy in conjunction with surgery (abs), 579
Therapy of cervix carcinoma (abs), 583
Therapy of collum carcinoma (abs), 584
Therapy of focal infections and obstructive deafness (abs), 580
Therapy of gynecological carcinoma (abs), 587
Therapy of thyroid and thymus in psoriasis (abs), 585
Therapy of tuberculosis of upper respiratory tract (abs), 582
Tissue reactions to, 93
Radiology (in arduis fidelis) (abs), 266
Radium clamp for use in mouth, throat and larynx (abs), 487
Emanation, decay constant of (abs), 485
Mesothorium and helium, commercial production of (abs), 490
Needles, an instrument for introducing, 174
Needles, new devices for implantation and removal of, 76
The alleviator (abs), 388
Therapy (abs), 586; 588
Therapy, graphical methods of calculation in, 451

Radium therapy in skin diseases (abs), 583
Therapy of esophageal carcinoma (abs), 589
Therapy of uterine hemorrhage (abs), 584
Therapy, some factors in (abs), 476
Therapy, status of (E), 247
With doramad salve in treatment of roentgen burn (abs), 578
Radius, fractures of lower end of (abs), 85
Typical fractures of (abs), 380
Radon, unfiltered, dosage study, 1
Rana, egg of, influence of the rapidity of development of, on duration of its survival (abs), 288
Rays, hard, roentgenograms made with (abs), 277
Rays of cosmic origin (E), 161
Rectum, cancer of, radiation treatment of (abs), 388
Renal fluoroscopy, an improved application of the use of, at the operating table (abs), 375
Neoplasms, clinical and surgical aspects of (abs), 185
Roentgenography during operation (abs), 188
Tumors, roentgen-ray diagnosis of (abs), 465
Research, radiotherapeutic, observations on present status of (abs), 479
Respiratory organs, iodipin in diagnosis in (abs), 265
Tract, upper, radiation therapy of tuberculosis of (abs), 582
Rhinophyma (abs), 86
Rickets, roentgen-ray study of 926 cases of (abs), 374
Roentgen burn of hands, treatment of, with radium and doramad salve (abs), 580
Diagnosis in gynecology and obstetrics (abs), 589
Injuries, discussion of, 251
Injuries, late, of skin (abs), 482
Rays, general action of, 285
Rays, indiscriminate use of (abs), 284
Rays in internal medicine (abs), 88
Rays, soft, histological findings in skin of mice and guinea pigs irradiated with (abs), 485
Rays, study of chemical substances and organisms with (abs), 278
Rays, therapeutic value of (abs), 587
Treatment of Basedow's disease (abs), 587
Treatment of bronchial asthma (abs), 586
Treatment of female genital organs (abs), 589
Treatment of peripheral paralyses (abs), 584
Treatment of pulmonary tuberculosis (abs), 588
Treatment of the spleen in asthma (abs), 581
Treatment of sweat gland abscesses of axilla (abs), 588
Treatment of tumors of brain (abs), 581
Roentgenograms made with hard rays (abs), 277
Roentgenography of organs by means of radioactive substances introduced internally (abs), 294
Roentgenologic instruction, 91
Roentgenology, training for practice of (E), 72

Sacroiliac joint, tuberculosis of, 150
Safety device against high tension shocks (abs), 277
Sandborn, Manly J., 168
Sarcoma, a case of, treated with deep roentgenotherapy (abs), 394
Bone, diagnosis and prognosis of (abs), 376
Of pelvis (abs), 575
Round-cell, radium and roentgen rays in the treatment of (abs), 392
Scaphoid bone, accessory (abs), 264
Bone of carpus, fractures of (abs), 381
Scattered roentgen radiation, total intensity of (abs), 486
Schlatter's disease and other allied conditions (abs), 562
Disease of tibial tubercle (abs), 83
Screens, intensifying, influence of temperature upon luminosity of (abs), 275
Sella, roentgenology of, 183
Semilunar carpal bone, displacement of (abs), 368
Seriograph or selector (abs), 271
Sesamoid anomalies of the foot (abs), 572
Sex determination, Sellheim's, and the relation to roentgenologic experience (abs), 90
Sexuality, influence of roentgen ray on, and on formation of mutants in lower fungi (abs), 483
Sickness, roentgen, attempt at prophylactic treatment of (abs), 289
Situs inversus totalis and behavior in electrocardiogram (abs), 464
Skin diseases, radium treatment in (abs), 586
Reactions, study of, after divided roentgen-ray dosage, 513
Skull, air bubbles in interior of (abs), 471
Spectrography, roentgen (abs), 287
Spinal canal, lipiodol diagnosis in (abs), 268
Cord tumor, subdural, diagnosed by lipiodol injection (abs), 471
Lesions, lipiodol and iodipin in diagnosis of, 431
Metastasis from breast carcinoma (abs), 482
Subarachnoidal block, diagnosis of (abs), 263
Tumors, diagnosis of, and roentgen treatment of (abs), 268
Spine, chronic osteomyelitis of (abs), 378
Malformation of the lower (abs), 378
Spleen, irradiation of, effect on blood coagulability (abs), 192
Roentgen therapy of, in asthma (abs), 581
Roentgenologic image of (abs), 457
Spondylolisthesis (abs), 382
Sporotrichosis and multiple myeloma, similarity of roentgen findings in, 224
Standard, minimum, for roentgen-ray service in a hospital (abs), 283
Standards of quality of roentgen rays (abs), 493
Sternum Hodgkin's disease of, 525
Stimulation, biological studies on problem of radiation (abs), 273
Stimulative irradiation, experimental studies on, 251
Roentgen irradiation of ovaries (abs), 395
Roentgen therapy (abs), 476
Stomach, benign tumors of (abs), 181
Carcinoma of, diagnosis of (abs), 461
Diaphragmatic hernia of (abs), 573
Function of, in Biermer's anemia (abs), 574
In the infant, roentgenological studies of (abs), 461
Niches on greater curvature of (abs), 470
Various forms of peristalsis and spasm of (abs), 81
Subdural tumor of lumbosacral cord, lipiodol in diagnosis of (abs), 471
Surgery and radiology, relationship (abs), 282
And radiotherapy, relative values of (abs), 389
Radiation therapy in conjunction with (abs), 579
Sweet localizing apparatus, modification of (abs), 484
Switch for protecting roentgen tubes (abs), 274
Syphilis, diagnosis of, and roentgenography of pubis (abs), 579
Syphilitic osteochondritis (E), 546
Syringomyelia, roentgen treatment of (abs), 268

Talodynia (abs), 459
Tear ducts, roentgenograms after filling with lipiodol (abs), 471
Testicles, influence of irradiation upon development of bones; histological findings (abs), 489
Malignant tumors of, diagnosis, prognosis and treatment, 44
Tetrabromphenolphthalein, aseptic phlebitis following injection of (abs), 274
Cholecystography after injections of (abs), 576
Tetraiodophenolphthalein, clinical significance of visualization of the gall-bladder by use of (abs), 379
Oral administration of, 166; (E), 545

Therapy, deep, prevention and treatment of untoward reactions (abs), 284
Surface, with extra soft roentgen rays (abs), 485
Thomas Sydenham, Clinician, by David Riesman (B.R.), 454
Thorium X, treatment of chronic ulcerating fistulas with (abs), 191
Thrombo-angiitis obliterans, roentgen therapy of (abs), 88
Thymoma, roentgen-ray diagnosis and treatment of (abs), 375
Thymus, enlargement of, roentgen study of 500 children for, 261
Method for estimating size of, 222
Thymus-thyroid irradiation in psoriasis (abs), 585
Thyroid-thymus irradiation in psoriasis (abs), 585
Thyroiditis, Riedel's (abs), 273
Tissue changes after experimental deep roentgen irradiation (abs), 279
Cultures, effect of radiumized media upon (abs), 274
Reactions to radiation (Caldwell Lecture), 93
Respiration, effect of roentgen rays upon (abs), 276
Tissues, growing *in vitro*, biological effects of radium upon, 155
In vitro cultivation of, with reference to production of cancer by means of radium and *x*-rays (abs), 281
Tongue, and oral cavity, treatment of, by radium emanation, 204
Cancer of, results after treatment by radium and roentgen rays, 207
Tonsils, roentgen-ray treatment of hypertrophied and infected (abs), 397
Tower skull (abs), 459
Trachea, primary carcinoma of (abs), 372
And bronchi, roentgenographic demonstration of, 227
Tube, medium and double focus (abs), 272
Tuberculosis, demonstration of pulmonary changes in by injection of lipiodol (abs), 368
Mediastinal and lung (abs), 458
Of joints, early diagnosis and treatment of (abs), 464
Of sacroiliac joint, 150
Of upper respiratory tract, radiation therapy of (abs), 582
Of the uvea, roentgen irradiation of (abs), 397
Pulmonary, diagnosis of (abs), 463
Pulmonary, importance of the apical roentgenogram (abs), 457
Pulmonary, roentgen diagnosis of (abs), 458
Pulmonary, roentgen treatment of (abs), 588
Pulmonary, technique of roentgen therapy in (abs), 280
Pulmonary, use of *x*-rays in diagnosis of (abs), 464
The hilum in, 424
Tuberculous arthritis, changes in the articular surfaces in (abs), 379
Cervical adenitis, radiotherapy in treatment of (abs), 269
Joints, *x*-ray appearance of (abs), 468
Tumor formation and roentgen-ray action (abs), 493
Tumors, benign, of stomach (abs), 181
Of brain, changes in size and relations of lateral ventricles in (abs), 182
Of brain, roentgen-ray treatment of (abs), 269; 581
Primary of patella (abs), 85

Ulcer, chronic peptic, in children (abs), 186
Duodenal, clinical and roentgen considerations of (abs), 371
Duodenal, roentgen diagnosis of (abs), 375
Gastric and duodenal, roentgen therapy of (abs), 394; 395
Peptic, roentgenologic diagnosis of (abs), 369
Ulcerations, chronic, in dog's stomach, produced by *x*-rays (abs), 276
Ultraviolet lamps, standardization of, 193
Light and roentgen rays, influence of, upon actual blood reaction and stimulation of respiratory center (abs), 279
Light and roentgen rays, influence of, upon the water, salt and protein content of the serum (abs), 280
Radiation (E), 244
Radiation and Actinotherapy, by Eleanor H. Russell and W. Kerr Russell (B.R.), 261
Rays combined with roentgen rays in treatment of acne (abs), 393
Rays in the Treatment and Cure of Disease, by Percy Hall (B.R.), 262
Rays, injurious use on old *x*-ray burns (abs), 280
Rays, standardization of, 549
Unit, *x*-ray, for examination of material in quantity (abs), 488
Ureter and kidney pelvis, dilatation of during pregnancy (abs), 377
Ureteral strictures, kinks and abnormal inserts (abs), 181
Ureters, kinks that are not kinks (abs), 459
And renal pelves, complete bilateral reduplication of, 149
Urethra, male, roentgenology of (abs), 263; 577
Urethrography (Vienna letter), 356
Urinary calculosis, bilateral (abs), 461
Urography (abs), 82
Uterine carcinoma, 365
Fibromyomata, treatment of (abs), 475
Hemorrhage, analysis of 60 cases treated by radium (abs), 383
Hemorrhage, benign, treatment of, with radium (abs), 398
Hemorrhage, radium treatment of (abs), 584
Neoplasms, non-malignant, treatment with radium (abs), 395
Uterus, action of radioactive substances on isolated (abs), 281
Carcinomas of, statistical report of roentgen treatment of 800 cases (abs), 270

Ventricle, third, dilatation of (abs), 187
Ventriculography (abs), 264
Verruca plantaris and callositas, *x*-ray treatment of and remarks on pathogenesis of (abs), 388
Vertebral column, anatomical note on a possible source of error in *x*-ray findings of the normal (abs), 487
Column, traumatic fractures of (abs), 466
Veterinary medicine, present status of roentgenology in (abs), 90
Vicia faba, effect of roentgen rays on seed and young plants of (abs), 293
Vienna letter, 356
Von Recklinghausen's disease (abs), 456

Wave lengths, different, selective action of (abs), 284
Of radiation, studies in effectiveness of (abs), 287
Whooping cough, does roentgen ray modify course of (abs), 384

Yeast cells, effect of roentgen rays upon (abs), 496
